

Designing CSR Project

Corporate leaders today would not risk disagreeing that their companies ought to invest in CSR. It is a part of the business strategy to become more competitive and remain relevant in rapidly changing markets and industry structure.

With the objective of facilitating various organizations to understand requirements for integrating Corporate Social responsibility with management systems and also help build the competencies of CSR

professionals looking to implement the new CSR guidelines within their organization. FICCI Aditya Birla CSR Centre for Excellence organized **“2 Days Training on Strategizing and Reporting CSR”** On 19th & 20th June.

The training was structured to the recent developments in the domain of CSR and provided delegates with hands-n training on practical tools, expert insights on how to design, implement, manage and document strategic CSR project.

The training was attended by senior CSR fraternity and highly successful.

Welcome

Designing CSR Project through ISO 26001 : 2010

19th & 20th June 2014

FICCI, Federation House, Delhi
